# 16 Lighting

**312** Rechargeable torch  
SYSLITE UNI

**312** Work light  
SYSLITE KAL II

**312** Site light  
SYSLITE DUO

**312** SYSLITE STL 450  
laser highlight

## See everything – work more accurately.

With the right light for every situation.

Whether the SYSLITE DUO site light, the SYSLITE KAL work light, the handy SYSLITE UNI or the SYSLITE STL 450 inspection light for surfaces – all are designed to make your work easier. In this case through outstanding illumination in any situation, from small surfaces to entire rooms. Because high-quality lighting is a necessary precondition for good work.

### Rechargeable torch

#### **SYSLITE UNI**

The small, compact light for maximum mobility. Can be used with all Festool battery packs.

### Site light

#### **SYSLITE DUO**

Wide-area illumination of entire rooms with light quality similar to daylight (on mains power, not battery). And the greatest possible flexibility in use: standing, on the Festool tripod stand, or use the hook catch on the back to hang it up.

### Work light

#### **SYSLITE KAL II**

Makes dark areas into working surfaces, in a very versatile way: can be set up or hung up in 5 positions and can be operated with a wide range of energy sources (internal rechargeable battery, battery pack, power cord, car charger cable).

### Highlight

#### **SYSLITE STL 450**

The highlight concentrates the light perfectly – ideal for checking surfaces even while you are working on them. With matching stand for variable height and inclination, and a long cord for a large working range.

Technical data	UNI	KAL II	DUO	STL 450
Lumens, 1st/2nd level (lm)	30/43	310/769	8.000/-	1.200/-
