“Festool products offer both accuracy and precision along with making simple tasks easier and quicker...Overall, Festool provides my building and joinery business with greater efficiency, safety and productivity. This in turn contributes towards high quality workmanship, which is constantly made easier to achieve with Festool systems”.

Greg Thompson, Builder ...who started with Festool after his Carpentry apprenticeship

Why Festool?

Renowned for top quality European designed and made power tool systems since 1925.

Produced to cope with the toughest demands. The average life expectancy of a Festool tool is greater than 10 years – tools that just keep working.

Festool is so confident in the manufacture of its products that the 3 year warranty applies to tools, batteries and chargers as well! Conditions apply.

Complete system solutions – the tool, dust extractor and complementary accessories work seamlessly together to produce superior results.

Innovative award winning solutions that help you tackle tricky applications with ease.

www.festool.com.au/apprentices

Invest in a quality system for years of quality results.

“From the moment you pick up a Festool product you can feel the quality, the end results are just much higher than any tool I have used before.”
Matthew Gorringer, Fine Furniture Designer and Maker

On Tools, Batteries and Chargers

“Festool makes me more efficient along every step of the process and the cliché ‘time is money’ could not be truer.”
Laura McCusker, Furniture Designer and Maker

Festool specialises in high quality dust free power tool systems built for the toughest demands of apprentices in various trades – builders, carpenters, cabinet makers, woodworkers as well as automotive, painting, concrete, engineering and related industries.

The Festool range includes a powerful 18V Cordless range (Power Select) of tools with brushless motors and exceptional performance, as well as premium quality cutting systems that will deliver precise, accurate cuts in a wide range of building materials and much more!

Take the messy job of cutting cement sheet eaves for example; with a Festool Plunge Saw, Diamond Blade, Guide Rail and Dust Extraction system, nasty dust is eliminated, and you are left with fast, clean, precise and superior results.

Trade Support Loans

Financial support is now available to apprentices through Trade Support Loans which provide consistent and regular payments to support apprentices with the cost of living, learning and investing in the tools required to complete their apprenticeship and set them up for the future. Under Trade Support Loans, payments are targeted to where apprentices need it most – early in their apprenticeship.

The value of the Trade Support Loan, being up to \$20,000 is over three times that of the Tools For your Trade payments with the loan payments being made in more regular instalments.* Information current from 1/1/2016

To find out more about the **Trade Support Loans** contact your local Australian Apprenticeship Centre or call the referral line on **13 38 73** or visit <http://www.australianapprenticeships.gov.au/content/trade-support-loans>
